Harvest:	March 2012
Technical:	Alc -12.5 %; TA -7.9; pH -3.2 ; RS -3.8 g/l
Cellaring:	Drink fresh

FOOD MATCHES

Serve chilled with freshly shucked oysters, crayfish or lemon garnished fish dishes, or simply enjoy on a warm summer evening.

VINTAGE CONDITIONS

Weather conditions were mild during summer, with a few short periods of hot weather where temperatures exceeded 30°C. Generally, conditions during the majority of the ripening period were ideal, with mild day time temperatures and cold nights frequently below 10°C, all conducive to excellent flavour development and the retention of natural acidity in the fruit. A great vintage!

WINEMAKING

Handpicked from five separate parcels and blended to achieve optimum results. Stainless steel tank fermentation.
